

Horazoden 1

Gedicht 1

- [1] Maecēnās atavīs ēdite rēgibus,
[2] ō et praesidium et dulce decus meum,
[3] sunt quōs curriculō pulverem Olympicum
[4] collēgisse juvat mētaque fervidīs
[5] ēvītāta rotis palmaque nōbilis
[6] terrārum dominōs ēvehit ad deōs;
- [7] hunc, sī mōbilium turba Quiritium
[8] certat tergeminis tollere honōribus;
- [9] illum, sī propriō condidit horreō
- [10] quicquid dē Libycīs verritur āreīs.
[11] Gaudentem patriōs findere sarculō
- [12] āgrōs Attalicīs condiōnibus
[13] numquam dēmoveās, ut trabe Cypriā
[14] Myrtōum pavidus nauta secet mare.
- [15] Luctantem Īcariīs flūctibus Āfricum
[16] mercātor metuēns ōtium et oppidī
[17] laudat rūra suī; mox reficit ratēs
- [18] quassās, indocilis pauperiem pati.
[19] Est quī nec veteris pōcula Massici
[20] nec partem solidō dēmere dē diē
- [21] spernit, nunc viridī membra sub arbutō
[22] strātus, nunc ad aquae lēne caput sacrae.
[23] Multōs castra juvant et lituō tubae
- [24] permixtus sonitus bellaque mātibus
[25] dētestāta. Manet sub Jove frigidō
[26] vērator tenerae conjugis inmemor,
[27] seu vīsa est catulis cerva fidēlibus,
[28] seu rūpit teretīs Marsus aper plagās.
[29] Mē doctārum hederæ praemia frontium
[30] dīs miscent superīs, mē gelidum nemus
[31] Nymphārumque levēs cum Satyrīs chori
[32] sēcernunt populō, sī neque tibiās
[33] Euterpē cohibet nec Polyhymnia
- [34] Lesbōum refugit tendere barbiton.
[35] Quod sī mē lyricīs vātibus inserēs,
[36] sūblimī feriam sīdera vertice.

Gedicht 2

[1] Jam satis terrīs nivis atque dīrae

[2] grandinis misit Pater et rubente

[3] dexterā sacrās jaculātus arcēs

[4] terruit Urbem,

[5] terruit gentis, grave nē rediret

[6] saeculum Pyrrhae nova mōnstra questae,

[7] omne cum Prōteus pecus ēgit altōs

[8] vīsere montis,

[9] piscium et summā genus haesit ulmō,

[10] nōta quae sēdēs fuerat columbis,

[11] et superjectō pavidae natārunt

[12] aequore dammae.

[13] Vidimus flāvum Tiberim retortis

[14] litore Ētrūscō violenter undis

[15] ire dējectum monumenta rēgis

[16] templaque Vestae,

[17] Īliae dum sē nimium querentī

[18] jactat ultōrem, vagus et sinistrā

[19] lābitur ripā Jove nōn probante ux
weiber

[20] ōrius amnis.

[21] Audiet cīvīs acuisse ferrum,

[22] quō gravēs Persae melius perīrent,

[23] audiet pugnās vitiō parentum

[24] rāra juvenus.

[25] Quem vocet dīvum populus ruentis

[26] imperī rēbus? Prece quā fatigent

[27] virginēs sānctae minus audientem

[28] carmina Vestam?

[29] cui dabit partīs scelus expiandī

[30] Juppiter? Tandem veniās precāmur,

[31] nūbe candentis umerōs amictus,

[32] augur Apollō,

[33] sive tū māvīs, Erycina rīdēns,

[34] quam Jocus circumvolat et Cupidō,

[35] sive nēglēctum genus et nepōtēs

[36] respicis, auctor,

[37] heu nimis longō satiāte lūdō,

[38] quem juvat clāmor galeaeque lēvēs,

[39] ācer et Maurī peditis cruentum

[40] voltus in hostem,

[41] sive mūtātā juvenem figurā

[42] āles in terrīs imitāris, almae

[43] fīlius Mājae, patiēns vocārī

[44] **Caesaris ultor.**
[45] **Sērus in caelum redeās diūque**
[46] **laetus intersīs populō Quirīnī,**

[47] **nēve tē nostrīs vitiīs inīquum**
[48] **ōcior aura**
[49] **tollat; hīc magnōs potius triumphōs,**
[50] **hīc amēs dīcī pater atque prīnceps,**

[51] **neu sinās Mēdōs equitāre inultōs**
[52] **tē duce, Caesar.**

Gedicht 3

[1] **Sic tē dīva potēns Cypri,**
[2] **sic frātrēs Helenae, lūcida sīdera,**
[3] **ventōrumque regat pater**
[4] **obstrictīs aliīs praeter lāpyga,**

[5] **nāvis, quae tibi crēditum**

[6] **dēbēs Vergilium; finibus Atticīs**
[7] **reddās incolumem precor**

[8] **et servēs animae dimidium meae.**
[9] **Illī rōbur et aes triplex**
[10] **circā pectus erat, quī fragilem truci**
[11] **commisit pelagō ratem**

[12] **prīmus, nec timuit praecipitem Āfricum**
[13] **dēcertantem Aquilōnibus**
[14] **nec tristīs Hyadas nec rabiem Notī,**
[15] **quō nōn arbiter Hādriae**
[16] **major, tollere seu pōnere volt freta.**

[17] **Quem mortis timuit gradum**
[18] **quī siccīs oculīs mōnstra natantia,**
[19] **quī vīdit mare turbidum et**
[20] **infāmīs scopulōs Āroceraunia?**

[21] **Nēquicquam deus abscidit**

[22] **prūdēns Ōceanō dissociābili**
[23] **terrās, sī tamen impiae**
[24] **nōn tangenda ratēs trānsiliunt vada.**
[25] **Audāx omnia perpeti**
[26] **gēns hūmāna ruit per vetitum nefās;**
[27] **audāx Īapetī genus**

[28] **ignem fraude malā gentibus intulit;**
[29] **post ignem aetheriā domō**
[30] **subductum maciēs et nova fēbrium**
[31] **terrīs incubuit cohors**
[32] **sēmōtique prius tarda necessitās**
[33] **lētī corripuit gradum.**
[34] **Expertus vacuum Daedalus āera**

- [35] pennīs nōn hominī datīs;
[36] perrūpīt Acheronta Herculeus labor.
[37] Nīl mortālibus arduī est;
- [38] caelum ipsum petimus stultitiā neque
[39] per nostrum patimur scelus
[40] irācunda Jovem pōnere fulmina.

Gedicht 4

- [1] Solvitur ācris hiems grātā vice vēris et Favōnī
[2] trahuntque siccās māchinae carinās,
[3] ac neque jam stabulīs gaudet pecus aut arātor ignī
[4] nec prāta cānīs albicant pruinīs.
- [5] Jam Cytherēa chorōs dūcit Venus imminente lūnā
[6] jūnctaeque Nymphīs Grātiaē decentēs
[7] alternō terram quatiunt pede, dum gravīs Cyclōpum
[8] Volcānus ārdēns vīsīt officinās.
- [9] Nunc decet aut viridī nitidum caput impedire myrtō
[10] aut flōre, terrae quem ferunt solūtae;
[11] nunc et in umbrōsis Faunō decet immolāre lūcīs,
[12] seu poscat agna sive mālīt haedō.
[13] Pallida Mors aequō pulsāt pede pauperum tabernās
[14] rēgumque turrīs. Ō beāte Sēstī,
[15] vītae summa brevis spem nōs vetat inchoāre longam.
[16] Jam tē premet nox fābulaeque Mānēs
- [17] et domus exīlis Plūtōnia, quō simul meārīs,
[18] nec rēgna vīnī sortiēre tālis
[19] nec tenerum Lycidan mīrābere, quō calet juvenus
- [20] nunc omnis et mox virginēs tepēbunt.

Gedicht 5

- [1] Quis multā gracilis tē puer in rosā
- [2] perfūsus liquidīs urget odōribus
[3] grātō, Pyrrha, sub antrō?
[4] cui flāvam religās comam,
- [5] simplex munditiīs? Heu quotiēns fidem
[6] mūtātōsque deōs flēbit et aspera
[7] nigrīs aequora ventīs
[8] ēmirābitur insolēns,
[9] quī nunc tē fruitur crēdulus aureā,
[10] quī semper vacuam, semper amābilem
[11] spērat, nēscius aurae
- [12] fallācis. Miserī, quibus
[13] intemptāta nitēs. Mē tabulā sacer

- [14] vōtīvā pariēs indicat ūvida
[15] suspendisse potenti
[16] vestimenta maris deō.

Gedicht 6

- [1] Scribēris Variō fortis et hostium

[2] victor, Maeonī carminis ālite,
[3] quam rem cumque ferōx nāvibus aut equīs
[4] mīles tē duce gesserit.
[5] Nōs, Āgrippa, neque haec dicere nec gravem
[6] Pēlidae stomachum cēdere nēsciī,

[7] nec cursūs duplicis per mare Ulixēi
[8] nec saevam Pelopis domum
[9] cōnāmur, tenuēs grandia, dum pudor
[10] inbellisque lyrae Mūsa potēns vetat
[11] laudēs ēgregiī Caesaris et tuās
[12] culpā dēterere ingeni.

[13] Quis Mārtem tunicā tēctum adamantinā

[14] dignē scripserit aut pulvere Trōicō
[15] nīgrum Mērionēn aut ope Palladis
[16] Tȳdīdēn superīs parem?

[17] Nōs convīvia, nōs proelia virginum

[18] sectīs in juvenēs unguibus ācrium
[19] cantāmus, vacuī sive quid ūrimur
[20] nōn praeter solitum levēs.

Gedicht 7

- [1] Laudābunt aliī clāram Rhodon aut Mytilēnēn

[2] aut Ephesum bimarisve Corinthī
[3] moenia vel Bacchō Thēbās vel Apolline Delphōs
[4] insignīs aut Thessala Tempe;

[5] sunt quibus ūnum opus est intāctae Palladis urbem
[6] carmine perpetuō celebrāre et
[7] undique dēcerptam frontī praepōnere olivam;

[8] plūrimus in Jūnōnis honōrem
[9] aptum dicet equīs Argos dītēsque Mycēnās:
[10] mē nec tam patiēns Lacedaemōn
[11] nec tam Lārisae percussit campus opīmae
[12] quam domus Albunae resonantis

[13] et praeceps Aniō ac Tīburnī lūcus et ūda

[14] mōbilibus pōmāria rīvīs.

[15] Albus ut obscūrō dēterget nūbila caelō

[16] saepe Notus neque parturit imbrīs

[17] perpetuō, sic tū sapiēns finīre mementō

[18] trīstitiam vitaeque labōrēs

[19] mollī, Plance, merō, seu tē fulgentia signīs

[20] castra tenent seu dēnsa tenēbit

[21] Tiburis umbra tuī. Teucer Salamīna patremque

[22] cum fugeret, tamen ūda Lyaeō

[23] tempora pōpuleā fertur vīnxisse corōnā,

[24] sic trīstīs affātus amicōs:

[25] 'Quō nōs cumque feret melior fortūna parente,

[26] ībimus, ō sociī comitēsque.

[27] Nīl dēspērandum Teucrō duce et auspice Teucrō:

[28] certus enim prōmisit Apollō

[29] ambiguum tellūre novā Salamīna futūram.

[30] Ō fortēs pejōraque passī

[31] mēcum saepe virī, nunc vīnō pellite cūrās;

[32] crās ingēns iterābimus aequor.'

Gedicht 8

[1] Lȳdia, dīc, per omnīs

[2] tē deōs ōrō, Sybarin cūr properēs amandō

[3] perdere, cūr aprīcum

[4] ōderit Campum, patiēns pulveris atque sōlis,

[5] cūr neque militāris

[6] inter aequālīs equitet, Gallica nec lupātīs

[7] temperet ōra frēnis.

[8] Cūr timet flāvum Tiberim tangere? Cūr olīvum

[9] sanguine vīperīnō

[10] cautius vītāt neque jam līvida gestat armīs

[11] braccia, saepe discō

[12] saepe trāns finem jaculō nōbilis expeditō?

[13] quid latet, ut marīnae

[14] filium dīcunt Thetidis sub lacrimōsa Trōjae

[15] fūnera, nē virilis

[16] cultus in caedem et Lyciās prōriperet catervās?

Gedicht 9

[1] Vidēs ut altā stet nive candidum

[2] Sōracte nec jam sustineant onus

[3] silvae labōrantēs gelūque

[4] flūmina cōstiterint acūtō?
[5] Dissolve frigus ligna super focō
[6] largē repōnēns atque benignius
[7] dēprōme quādrimum Sabinā,
[8] ō Thaliarche, merum diōtā.
[9] Permitte divis cētera, quī simul
[10] strāvēre ventōs aequore fervidō
[11] dēproeliantīs, nec cupressī
[12] nec veterēs agitantur ornī.
[13] Quid sit futūrum crās, fuge quaerere, et
[14] quem fors diērum cumque dabit, lucrō
[15] adpōne nec dulcis amōrēs
[16] sperne, puer, neque tū chorēās,

[17] dōnec virentī cānitiēs abest
[18] mōrōsa. Nunc et Campus et āreae
[19] lēnēsque sub noctem susurrī
[20] compositā repetantur hōrā,

[21] nunc et latentis prōditor intumō
[22] grātus puellae rīsus ab angulō
[23] pīgnusque dēreptum lacertīs

[24] aut digitō male pertinācī.

Gedicht 10

[1] Mercurī, fācunde nepōs Atlantis,
[2] quī ferōs cultūs hominum recentum
[3] vōce fōrmāstī catus et decōrae
[4] mōre palaestrae,
[5] tē canam, magnī Jovis et deōrum
[6] nūntium curvaeque lyrae parentem,

[7] callidum quicquid placuit jocōsō
[8] condere fūrtō.

[9] Tē, bovēs ōlim nisi reddidissēs
[10] per dolum āmōtās, puerum minācī
[11] vōce dum terret, viduus pharêtrā
[12] rīsit Apollō.
[13] Quīn et Ātrīdās duce tē superbōs

[14] Īliō dīvēs Priamus relictō
[15] Thessalōsque ignīs et inīqua Trōjae
[16] castra fefellit.

[17] Tū piās laetīs animās repōnis
[18] sēdibus virgāque levem coercēs
[19] aureā turbam, superīs deōrum
[20] grātus et imīs.

Gedicht 11

- [1] Tū nē quaesierīs (scīre nefās) quem mihi, quem tibi
[2] finem dī dederint, Leuconoē, nec Babylōniōs
[3] temptārīs numerōs. Ut melius quicquid erit patī!
[4] Seu plūrīs hiemēs seu tribuit Juppiter ultimam,
[5] quae nunc oppositīs dēbilitat pūmicibus mare
[6] Tyrrhēnum, sapiās, vīna liquēs et spatiō brevī
[7] spem longam resecēs. Dum loquimur, fūgerit invida
[8] aetās: carpe diem, quam minimum crēdula posterō.

Gedicht 12

- [1] Quem virum aut hērōa lyrā vel ācrī
[2] tibiā sūmis celebrāre, Clīō?
[3] Quem deum? Cujus recinet jocōsa
[4] nōmen imāgō
[5] aut in umbrōsīs Helicōnis ōris
[6] aut super Pindō gelidōve in Haemō?
[7] Unde vōcālem temere īsecūtae
[8] Orpheia silvae
[9] arte mātērnā rapidōs morantem
[10] flūminum lāpsūs celerisque ventōs,
[11] blandum et aurītās fidibus canōris
[12] dūcere quercūs.
[13] Quid prius dīcam solitīs parentis
[14] laudibus, quī rēs hominum ac deōrum,
[15] quī mare ac terrās variisque mundum
[16] temperat hōris?
[17] Unde nīl majus generātur ipsō
[18] nec viget quicquam simile aut secundum;
[19] proximōs illi tamen occupābit
[20] Pallas honōrēs.
[21] Proeliis audāx, neque tē silēbō,
[22] Liber, et saevīs inimīca virgō
[23] bēluīs, nec tē, metuende certā
[24] Phoebe sagittā.
[25] Dīcam et Alcīdēn puerōsque Lēdae,

[26] hunc equīs, illum superāre pugnīs
[27] nōbilem; quōrum simul alba nautīs
[28] stēlla refulsit,
[29] dēfluit saxīs agitātus ūmor,
[30] concidunt ventī fugiuntque nūbēs
[31] et mināx, quod sīc voluēre, pontō
[32] unda recumbit.
[33] Rōmulum post hōs prius an quiētum
[34] Pompilī rēgnum memorem, an superbōs

[35] Tarquinī fascēs, dubitō, an Catōnis
[36] nōbile lētum.
[37] Rēgulum et Scaurōs animaeque magnae
[38] prōdigum Paulum superante Poenō
[39] grātus insignī referam Camēnā
[40] Fābriciumque.

[41] Hunc et incōmptīs Curium capillīs

[42] ūtilem bellō tulit et Camillum
[43] saeva paupertās et avītus aptō
[44] cum lare fundus.
[45] Crēscit occultō velut arbor aevō
[46] fāma Mārcellī; micat inter omnīs

[47] Jūlium sīdus, velut inter ignīs
[48] lūna minōrēs.
[49] Gentis hūmānae pater atque cūstōs,
[50] orte Sāturnō, tibi cūra magnī
[51] Caesaris fātīs data: tū secundō
[52] Caesare rēgnēs.

[53] Ille seu Parthōs Latiō imminentīs

[54] ēgerit jūstō domitōs triumphō
[55] sive subjectōs Orientis ōrae
[56] Sēras et Indōs,
[57] tē minor laetum reget aequus orbem:
[58] tū gravī currū quatiēs Olympum,

[59] tū parum castīs inimīca mittēs
[60] fulmina lūcīs.

Gedicht 13

[1] Cum tū, Lȳdia, Tēlephī
[2] cervicem roseam, cērea Tēlephī
[3] laudās bracchia, vae, meum

[4] fervēns difficilī bile tumet jecur.
[5] Tunc nec mēns mihi nec color
[6] certā sēde manet, ūmor et in genās
[7] fūrtim lābitur, arguēns

[8] quam lentīs penitus mācerer ignibus.

[9] Ūror, seu tibi candidōs
[10] turpārunt umerōs inmodicae merō
[11] rixae, sive puer furēns
[12] inpressit memorem dente labrīs notam.
[13] Nōn, sī mē satis audiās,
[14] spērēs perpetuum dulcia barbarē
[15] laedentem ōscula, quae Venus

[16] quīntā parte suī nectaris imbuit.
[17] Fēlicēs ter et amplius
[18] quōs inrupta tenet cōpula nec malīs
[19] divolsus querimōniīs

[20] sūprēmā citius solvet amor diē.

Gedicht 14

[1] Ō nāvis, referent in mare tē novī

[2] flūctūs. Ō quid agis? Fortiter occupā
[3] portum. Nōne vidēs ut
[4] nūdum rēmigiō latus,
[5] et mālus celerī saucius Āfricō
[6] antemnāque gemant ac sine fūnibus
[7] vix dūrāre carīnae

[8] possint imperiōsius

[9] aequor? Nōn tibi sunt integra lintea,
[10] nōn dī, quōs iterum pressa vocēs malō.
[11] Quamvis Pontica pīnus,

[12] silvae filia nōbilis,
[13] jactēs et genus et nōmen inūtile:

[14] nīl pictīs timidus nāvita puppibus

[15] fidit. Tū, nisi ventīs
[16] dēbēs lūdibrium, cave.

[17] Nūper sollicitum quae mihi taedium,
[18] nunc dēsiderium cūraque nōn levis,
[19] interfūsa nitentīs
[20] vitēs aequora Cŷcladās.

Gedicht 15

[1] Pāstor cum traheret per freta nāvibus
[2] Īdaeīs Helenēn perfidus hospitam,

[3] ingrātō celerīs obruit ōtiō
[4] ventōs ut caneret fera
[5] Nēreus fāta: ‘Malā dūcis avī domum

[6] **quam multō repetet Graecia milite,**
[7] **conjūrātā tuās rumpere nūptiās**
[8] **et rēgnum Priamī vetus.**
[9] **Heu, heu, quantus equīs, quantus adest virīs**
[10] **sūdor! Quanta movēs fūnera Dardanae**
[11] **gentī! Jam galeam Pallas et aegida**
[12] **currūsque et rabiem parat.**

[13] **Nēquicquam Veneris praesidiō ferōx**
[14] **pectēs caesariem grātaque fēminīs**

[15] **inbellī citharā carmina dīvidēs;**
[16] **nēquicquam thalamō gravīs**
[17] **hastās et calamī spīcula Cnōsiī**
[18] **vītābis strepitumque et celerem sequī**
[19] **Ājācem: tamen, heu sērus, adulterōs**
[20] **crīnēs pulvere collinēs.**

[21] **Nōn Lāertiadēn, exitium tuae**

[22] **gentis, nōn Pylīum Nestora rēspicis?**

[23] **Urgent inpavidī tē Salamīnius**
[24] **Teucer, tē Sthenelus sciēs**
[25] **pugnae, sive opus est imperitāre equīs,**
[26] **nōn aurīga piger; Mērionēn quoque**
[27] **nōscēs. Ecce furit tē reperīre atrōx**
[28] **Tydidēs melior patre,**
[29] **quem tū, cervus utī vallis in alterā**

[30] **vīsum parte lupum grāminis inmemor,**

[31] **sublīmī fugiēs mollis anhelitū,**
[32] **nōn hoc pollicitus tuae.**
[33] **Īrācunda diem prōferet Īliō**
[34] **mātrōnisque Phrygum classis Achilleī;**
[35] **post certās hiemēs ūret Achāicus**

[36] **ignis Īliacās domōs.'**

Gedicht 16

[1] **Ō mātrem pulchrā filia pulchrior,**
[2] **quem crīminōsīs cumque volēs modum**
[3] **pōnēs iambīs, sive flammā**
[4] **sive marī libet Hādriānō.**
[5] **Nōn Dindymēnē, nōn adytis quatit**
[6] **mentem sacerdotum incola Pŷthius,**
[7] **nōn Liber aequē, nōn acūta**
[8] **sic geminant Corybantes aera,**
[9] **trīstēs ut irae, quās neque Nōricus**
[10] **dēterret ēnsis nec mare naufragum**
[11] **nec saevus ignis nec tremendō**
[12] **Juppiter ipse ruēns tumultū.**
[13] **Fertur Promētheus addere principi**
[14] **līmō coactus particulam undique**
[15] **dēsectam et insānī leōnis**

- [16] vim stomachō apposuisse nostrō.
[17] Irae Thyestēn exitiō gravi
[18] strāvēre et altis urbibus ultimae
[19] stetēre causae, cūr perirent
- [20] funditus inprimeretque mūrīs
[21] hostile arātrum exercitus insolēns.
[22] Conpēsce mentem: mē quoque pectoris
[23] temptāvit in dulcī juventā
[24] fervor et in celerēs iambōs
[25] mīsīt furem. Nunc ego mītibus
[26] mūtāre quaerō trīstia, dum mihi
[27] fiās recantātis amīca
[28] opprobriis animumque reddās.

Gedicht 17

- [1] Vēlōx amoenum saepe Lucrētilem
[2] mūtāt Lycaeō Faunus et igneam
[3] dēfendit aestātem capellīs
[4] usque meīs pluviōsque ventōs.
[5] Inpūne tūtum per nemus arbutōs
[6] quaerunt latentis et thyma dēviae
[7] olentis uxōrēs maritī
[8] nec viridīs metuunt colūbrās
- [9] nec Mārtiālīs haediliae lupōs,
[10] utcumque dulcī, Tyndari, fistulā
[11] vallēs et Ustīcae cubantis
[12] lēvia personuēre saxa.
[13] Dī mē tuentur, dīs pietās mea
