

Horazoden 1

Gedicht 1

- [1] Maecēnās atavīs ēdite rēgibus,
[2] ō et praesidium et dulce decus meum,
[3] sunt quōs curriculō pulverem Olympicum
[4] collēgisse juvat mētaque fervidīs
[5] ēvītāta rotīs palmaque nōbilis
[6] terrārum dominōs ēvehit ad deōs;
[7] hunc, sī mōbillium turba Quirītium
[8] certat tergemini tollere honōribus;
[9] illum, sī propriō condidit horreō
[10] quicquid dē Libycīs verritur āreīs.
[11] Gaudentem patriōs findere sarculō
[12] āgrōs Attalicīs condiciōnibus
[13] numquam dēmoveās, ut trabe Cypriā
[14] Myrtōum pavidus nauta secet mare.
[15] Luctantem īcariīs flūctibus Āfricum
[16] mercātor metuēns ôtium et oppidi
[17] laudat rūra suī; mox reficit ratēs
[18] quassās, indocilis pauperiem patī.
[19] Est quī nec veteris pōcula Massicī
[20] nec partem solidō dēmere dē diē
[21] spernit, nunc viridī membra sub arbutō
[22] strātus, nunc ad aquae lēne caput sacrae.
[23] Multōs castra juvant et lituō tubae
[24] permixtus sonitus bellaque mātribus
[25] dētestāta. Manet sub Jove frīgidō
[26] vēnātor tenerae conjugis inmemor,
[27] seu vīsa est catulīs cerva fidēlibus,
[28] seu rūpit teretīs Marsus aper plagās.
[29] Mē doctārum hederae praemia frontium
[30] dīs miscent superīs, mē gelidum nemus
[31] Nymphārumque levēs cum Satyrīs chorī
[32] sēcernunt populō, sī neque tībiās
[33] Euterpē cohibet nec Polyhymnia
[34] Lesbōum refugit tendere barbiton.
[35] Quod sī mē lyricīs vātibus īserēs,
[36] sūblīmī feriam sīdera vertice.

Gedicht 2

- [1] Jam satis terrīs nivis atque dīrae
[2] grandinis mīsit Pater et rubente
[3] dexterā sacrās jaculātus arcēs
[4] terruit Urbem,
[5] terruit gentīs, grave nē redīret
[6] saeculum Pyrrhae nova mōnstra questae,
[7] omne cum Prōteus pecus ēgit altōs
[8] vīsere montīs,

[9] **piscium** et **summā** genus haesit ulm
[10] **nōta** quae **sēdēs** fuerat columbīs,
[11] et **superjectō** pavidae natārunt
[12] **aequore** dammae.
[13] **Vīdimus** flāvum Tiberim retortīs
[14] **lītore** Ētrūscō violenter undīs
[15] **īre** dējectum monumenta rēgis
[16] **templaque** Vestae,
[17] **īliae** dum sē nimium querentī
[18] jactat ultōrem, **vagus** et **sinistrā**
[19] lābitur rīpā Jove nōn probante ux
weiber
wif
[20] ūrius amnis.
[21] **Audiet** cīvīs acuisse ferrum,
[22] quō gravēs Persae melius perīrent,
[23] audiet pugnās vitiō parentum
[24] rāra juventus.
[25] Quem vocet dīvum populus ruentis
[26] imperī rēbus? Prece quā fatīgent
[27] virginēs sāntae minus audientem
[28] carmina Vestam?
[29] cui dabit partīs scelus expiandī
[30] **Juppiter?** Tandem veniās precāmur,
[31] nūbe cādentīs umerōs amictus,
[32] augur Apollō,
[33] sīve tū māvīs, Erycīna rīdēns,
[34] quam **Jocus** circumvolat et Cupīdō,
[35] sīve nēglēctum genus et nepōtēs
[36] respicis, auctor,
[37] heu nimis longō satiāte lūdō,
[38] quem juvat clāmor galeaeque lēvēs,
[39] ācer et Maurī peditis cruentum
[40] voltus in hostem,
[41] sīve mūtātā juvenem figūrā
[42] āles in terrīs imitāris, almae
[43] filius Mājae, patiēns vocārī
[44] Caesaris ultor.
[45] Sērus in caelum redeās diūque
[46] laetus intersīs populō Quirīnī,
[47] nēve tē nostrīs vitiīs inīquum
[48] ūcior aura
[49] tollat; hīc magnōs potius triumphōs,
[50] hīc ames dīcī pater atque prīnceps,
[51] neu sinās Mēdōs equitāre inultōs
[52] tē duce Caesar.

Gedicht 3

[1] Sīc tē dīva potēns Cyprī,
[2] sīc frātrēs Helenae, lūcida sīdera,
[3] ventōrumque regat pater
[4] obstrictīs alīs praeter lāpyga.

[5] nāvis, quae tibi crēditum
[6] dēbēs Vergilium; fīnibus Atticīs
[7] reddās incolumem precor
[8] et servēs animae dīmidium meae.
[9] Ilt̄ rōbur et aes triplex
[10] circā pectus erat, quī fragilem trucī
[11] commīsit pelagō ratem
[12] prīmus, nec timuit praecipitem Āfricum
[13] dēcertantem Aquilōnibus
[14] nec trīstīs Hyadas nec rabiem Notī,
[15] quō nōn arbiter Hādriæ
[16] major, tollere seu pōnere volt freta.
[17] Quem mortis timuit gradum
[18] quī siccīs oculīs mōnstra natantia,
[19] quī vīdit mare turbidum et
[20] īnfāmīs scopulōs Ācrocerauṇia?
[21] Nēquicquam deus abscidit
[22] prūdēns Ōceanō dissociābilī
[23] terrās, sī tamen impiae
[24] nōn tangenda ratēs trānsiliunt vada.
[25] Audāx omnia perpetī
[26] gēns hūmāna ruit per vetitum nefās;
[27] audāx īapetī genus
[28] ignem fraude malā gentibus intulit;
[29] post ignem aetheriā domō
[30] subductum maciēs et nova fēbrium
[31] terrīs incubuit cohors
[32] sēmōtīque prius tarda necessitās
[33] lētī corripuit gradum.
[34] Expertus vacuum Daedalus āera
[35] pennīs nōn hominī datīs;
[36] perrūpīt Acheronta Herculeus labor.
[37] Nīl mortālibus arduī est;
[38] caelum ipsum petimus stultitiā neque
[39] per nostrum patimur scelus
[40] īrācunda Jovem pōnere fulmina.

Gedicht 4

[1] Solvitur ācris hiems grātā vice vēris et Favōnī
[2] trahuntque siccās māchīnae carīnās,
[3] ac neque jam stabulīs gaudet pecus aut arātor ignī
[4] nec prāta cānīs albicant pruīnīs.
[5] Jam Cytherēa chorōs dūcit Venus imminentē lūnā
[6] jūntaeque Nymphīs Grātiae decentēs
[7] alternō terram quatīunt pede, dum gravīs Cyclōpum
[8] Volcānus ārdēns vīsit officīnās.
[9] Nunc decet aut viridī nitidum caput impedīre myrtō
[10] aut flōre, terrae quem ferunt solūtae;
[11] nunc et in umbrōsīs Faunō decet immolare lūcīs,
[12] seu poscat agna sīve mālit haedō.
[13] Pallida Mors aequō pulsat pede pauperum tabernās

[14] rēgumque turrīs. Ō beāte Sēstī,
[15] vītae summa brevis spem nōs vetat inchoāre longam.
[16] Jam tē premet nox fābulaeque Mānēs
[17] et domus exīlis Plūtōnia, quō simul meārīs,
[18] nec rēgna vīnī sortiēre tālis
[19] nec tenerum Lycidan mīrābere, quō calet juventus
[20] nunc omnis et mox virginēs tepēbunt.

Gedicht 5

[1] Quis multā gracilis tē puer in rosā
[2] perfūsus liquidīs urget odōribus
[3] grātō, Pyrrha, sub antrō?
[4] cui flāvam religās comam,
[5] simplex munditiūs? Heu quotiēns fidem
[6] mūtātōsque deōs flēbit et aspera
[7] nīgrīs aequora ventīs
[8] ēmīrābitur īsolēns,
[9] quī nunc tē fruitur crēdulus aureā,
[10] quī semper vacuam, semper amābilem
[11] spērat, nēscius aurae
[12] fallācis. Miserī, quibus
[13] intēptāta nitēs. Mē tabulā sacer
[14] vōtīvā pariēs indicat ūvida
[15] suspendisse potentī
[16] vestīmenta maris deō.

Gedicht 6

[1] Scrībēris Variō fortis et hostium
[2] victor, Maeoniī carminis ālite,
[3] quam rem cumque ferōx nāvibus aut equīs
[4] mīles tē duce gesserit.
[5] Nōs, Āgrippa, neque haec dīcere nec gravem
[6] Pēlīdae stomachum cēdere nēsciī,
[7] nec cursūs duplicitis per mare Uixeī
[8] nec saevam Pelopis domum
[9] cōnāmur, tenuēs grandia, dum pudor
[10] inbellisque lyrae Mūsa potēns vetat
[11] laudēs ēgregiī Caesaris et tuās
[12] culpā dēterere ingenī.
[13] Quis Mārtem tunicā tēctum adamantinā
[14] dignē scrīpserit aut pulvēre Trōicō
[15] nīgrum Mērionēn aut ope Palladis
[16] Tȳdīdēn superīs parem?
[17] Nōs convīvia, nōs proelia virginum
[18] sectīs in juvenēs unguibus ācrium
[19] cantāmus, vacuī sīve quid ūrimur
[20] nōn praeter solitum levēs.

Gedicht 7

- [1] Laudābunt aliī clāram Rhodon aut Mytilēnēn
[2] aut Ephesum bimarisve Corinthī
[3] moenia vel Bacchō Thēbās vel Apolline Delphōs
[4] īsignīs aut Thessala Tempe;
[5] sunt quibus ūnum opus est intāctae Palladis urbem
[6] carmine perpetuō celebrāre et
[7] undique dēcerptam frontī praepōnere olīvam;
[8] plūrimus in Jūnōnis honōrem
[9] aptum dīcet equīs Argos dītēsque Mycēnās:
[10] mē nec tam patiēns Lacedaemōn
[11] nec tam Lārīsae percussit campus opīmae
[12] quam domus Albuneae resonantis
[13] et praeceps Anīō ac Tiburnī lūcus et ūda
[14] mōbilis pōmāria rīvīs.
[15] Albus ut obscurō dēterget nūbila caelō
[16] saepe Notus neque parturit imbrīs
[17] perpetuō, sīc tū sapiēns finīre mementō
[18] trīstitiam vītaeque labōrēs
[19] mollī, Plance, merō, seu tē fulgentia signīs
[20] castra tenent seu dēnsa tenēbit
[21] Tiburis umbra tuī. Teucer Salamīna patremque
[22] cum fugeret, tamen ūda Lyaeō
[23] tempora pōpuleā fertur vīnxisse corōnā,
[24] sīc trīstīs affātus amīcōs:
[25] 'Quō nōs cumque feret melior fortūna parente,
[26] ūbimus, ō sociī comitēsque.
[27] Nīl dēspērandum Teucrō duce et auspice Teucrō:
[28] certus enim prōmīsit Apollō
[29] ambiguam tellūre novā Salamīna futūram.
[30] Ō fortēs pejōraque passī
[31] mēcum saepe virī, nunc vīnō pellite cūrās;
[32] crās ingēns iterābimus aequor.'

Gedicht 8

- [1] Lȳdia, dīc, per omnīs
[2] tē deōs ūrō, Sybarin cūr properēs amandō
[3] perdere, cūr aprīcum
[4] ūderit Campum, patiēns pulveris atque sōlis,
[5] cūr neque mīlitārīs
[6] inter aequālīs equitet, Gallica nec lupātīs
[7] temperet ūra frēnīs.
[8] Cūr timet flāvum Tiberim tangere? Cūr olīvum
[9] sanguine vīperīnō
[10] cautius vītat neque jam līvida gestat armīs
[11] bracchia, saepe discō
[12] saepe trāns fīnem jaculō nōbilis expedītō?
[13] quid latet, ut marīnae
[14] filium dīcunt Thetidis sub lacrimōsa Trōjae
[15] fūnera, nē virīlis

[16] *cultus* in *caedem* et *Lyciās* prōriperet *catervās?*

Gedicht 9

[1] *Vidēs* ut *altā* stet *nive* candidum
[2] *Sōracte* nec *jam* sustineant *onus*
[3] *silvae* labōrantēs *gelūque*
[4] *flūmina* cōnstiterint *acūtō?*
[5] *Dissolve* frīgus *ligna* super *focō*
[6] *largē* repōnēns atque benignius
[7] dēprōme quādrīnum *Sabīnā,*
[8] ō *Thaliarche*, merum diōtā.
[9] Permitte dīvīs cētera, quī simul
[10] strāvēre ventōs aequore fervidō
[11] dēproeliantīs, nec *cupressī*
[12] nec *veterēs* agitantur ornī.
[13] Quid sit futūrum crās, fuge quaerere, et
[14] quem fors diērum cumque dabit, lucrō
[15] adpōne nec dulcīs amōrēs
[16] sperne, puer, neque tū chorēas,
[17] dōnec virentī cānitiēs abest
[18] mōrōsa. Nunc et *Campus* et āreae
[19] lēnēsque sub noctem susurrī
[20] compositā repetantur hōrā,
[21] nunc et latentis prōditor intumō
[22] grātus puellae rīsus ab angulō
[23] pignusque dēreptum lacertīs
[24] aut digitō male pertinācī.

Gedicht 10

[1] Mercurī, fācunde nepōs Atlantis,
[2] quī ferōs cultūs hominum recentum
[3] vōce fōrmāstī catus et decōrae
[4] mōre palaestrae,
[5] tē canam, magnī Jovis et deōrum
[6] nūntium curvaeque lyrae parentem,
[7] callidum quicquid placuit jocōsō
[8] condere fūrtō.
[9] Tē, bovēs ūlim nisi reddidissēs
[10] per dolum āmōtās, puerum minācī
[11] vōce dum terret, viduus pharētrā
[12] rīsit Apollō.
[13] Quīn et Ātrīdās duce tē superbōs
[14] īliō dīvēs Priamus relictō
[15] Thessalōsque ignīs et inīqua Trōjae
[16] castra fefellit.
[17] Tū piās laetīs animās repōnis
[18] sēdibus virgāque levem coercēs
[19] aureā turbam, superīs deōrum
[20] grātus et īmīs.

Gedicht 11

- [1] Tū nē quaesierīs (scīre nefās) quem mihi, quem tibī
- [2] fīnem dī dederint, Leuconoē, nec Babylōniōs
- [3] temptārīs numerōs. Ut melius quicquid erit patī!
- [4] Seu plūrīs hiemēs seu tribuit Juppiter ultimam,
- [5] quae nunc oppositī dēbilitat pūmicibus mare
- [6] Tyrrhēnum, sapiās, vīna liquēs et spatiō brevī
- [7] spēm longam resecēs. Dum loquimur, fūgerit invida
- [8] aetās: carpe diem, quam minimum crēdula posterō.

Gedicht 12

- [1] Quem virum aut hērōa lyrā vel ācrī
- [2] tībiā sūmis celebrāre, Clīō?
- [3] Quem deum? Cujus recinet jocōsa
- [4] nōmen imāgō
- [5] aut in umbrōsīs Helicōnis ūris
- [6] aut super Pindō gelidōve in Haemō?
- [7] Unde vōcālem temere īnsecūtae
- [8] Orpheo silvae
- [9] arte māternā rapidōs morantem
- [10] flūminum lāpsūs celerīsque ventōs,
- [11] blandum et aurītās fidibus canōrīs
- [12] dūcere quercūs.
- [13] Quid prius dīcam solitīs parentis
- [14] laudibus, quī rēs hominum ac deōrum,
- [15] quī mare ac terrās variīsque mundum
- [16] temperat hōrīs?
- [17] Unde nīl majus generātur ipso
- [18] nec viget quicquam simile aut secundum;
- [19] proximōs illī tamen occupābit
- [20] Pallas honōrēs.
- [21] Proeliī audāx, neque tē silēbō,
- [22] Līber, et saevīs inimīca virgō
- [23] bēluīs, nec tē, metuende certā
- [24] Phoebe sagittā.
- [25] Dīcam et Alcīdēn puerōsque Lēdae,
- [26] hunc equīs, illum superāre pugnīs
- [27] nōbilem; quōrum simul alba nautīs
- [28] stēlla refulsit,
- [29] dēfluit saxīs agitātus ūmor,
- [30] concidunt ventī fugiuntque nūbēs
- [31] et mināx, quod sīc voluēre, pontō
- [32] unda recumbit.
- [33] Rōmulum post hōs prius an quiētum
- [34] Pompilī rēgnum memorem, an superbōs
- [35] Tarquinī fascēs, dubitō, an Catōnis
- [36] nōbile lētum.
- [37] Rēgulum et Scaurōs animaeque magnae
- [38] prōdigum Paulum superante Poenō
- [39] grātus īsignī referam Camēnā

[40] Fābriciumque.
[41] Hunc et incōmptīs Curium capillīs
[42] ūtilem bellō tulit et Camillum
[43] saeva paupertās et avītus aptō
[44] cum lare fundus.
[45] Crēscit occultō velut arbor aevō
[46] fāma Mārcellī; micat inter omnīs
[47] Jūlīum sīdus, velut inter ignīs
[48] lūna minōrēs.
[49] Gentis hūmānae pater atque cūstōs,
[50] orte Sāturnō, tibi cūra magnī
[51] Caesaris fātīs data: tū secundō
[52] Caesare rēgnēs.
[53] Ille seu Parthōs Latiō imminentīs
[54] ēgerit jūstō domitōs triumphō
[55] sīve subjectōs Orientis ḍrae
[56] Sēras et Indōs,
[57] tē minor laetum reget aequus orbem:
[58] tū gravī currū quatiēs Olympum,
[59] tū parum castīs inimīca mittēs
[60] fulmina lūcis.

Gedicht 13

[1] Cum tū, Lȳdia, Tēlephī
[2] cervīcem roseam, cērea Tēlephī
[3] laudās bracchia, vae, meum
[4] fervēns difficilī bīle tumet jecur.
[5] Tunc nec mēns mihi nec color
[6] certā sēde manet, ūmor et in genās
[7] fūrtim lābitur, arguēns
[8] quam lentīs penitus mācerer ignibus.
[9] Ūror, seu tibi candidōs
[10] turpārunt umerōs inmodicae merō
[11] rixae, sīve puer furēns
[12] impressit memorem dente labrīs notam.
[13] Nōn, sī mē satis audiās,
[14] spērēs perpetuum dulcia barbarē
[15] laudentem ūscula, quae Venus
[16] quīntā parte suī nectaris imbuit.
[17] Fēlicēs ter et amplius
[18] quōs inrupta tenet cōpula nec malīs
[19] dīvolsus querimōniīs
[20] sūprēmā citius solvet amor diē.

Gedicht 14

[1] Ō nāvis, referent in mare tē novī
[2] flūctūs. Ō quid agis? Fortiter occupā
[3] portum. Nōnne vidēs ut
[4] nūdum rēmigiō latus,
[5] et mālus celerī saucius Āfricō

[6] antemnāque gemant ac sine fūnibus
[7] vix dūrare carīnae
[8] possint imperiōsius
[9] aequor? Nōn tibi sunt integra līntea,
[10] nōn dī, quōs iterum pressa vocēs malō.
[11] Quamvis Pontica pīnus,
[12] silvae filia nōbilis,
[13] jactēs et genus et nōmen inūtile:
[14] nīl pictīs timidus nāvita puppibus
[15] fīdit. Tū, nisi ventīs
[16] dēbēs lūdibrium, cave.
[17] Nūper sollicitum quae mihi taedium,
[18] nunc dēsiderium cūraque nōn levīs,
[19] interfūsa nitentīs
[20] vītēs aequora Cīycladās.

Gedicht 15

[1] Pāstor cum traheret per freta nāvibus
[2] Īdaeīs Helenēn perfidus hospitam,
[3] ingrātō celerīs obruit ḍītiō
[4] ventōs ut caneret fera
[5] Nēreus fāta: 'Malā dūcis avī domum
[6] quam multō repetet Graecia mīlite,
[7] conjūrāta tuās rumpere nūptiās
[8] et rēgnum Priamī vetus.
[9] Heu, heu, quantus equīs, quantus adest virīs
[10] sūdor! Quanta movēs fūnera Dardanae
[11] gentī! Jam galeam Pallas et aegida
[12] currūsque et rabiēm parat.
[13] Nēquicquam Veneris praeṣidiō ferōx
[14] pectēs caesariem grātaque fēminīs
[15] inbellī cītharā carmina dīvidēs;
[16] nēquicquam thalamō gravīs
[17] hastās et calamī spīcula Chōsīi
[18] vītābis strepitumque et celerem sequī
[19] Ājācem: tamen, heu sērus, adulterōs
[20] crīnēs pulvēre collinēs.
[21] Nōn Lāertiadēn, exitium tuae
[22] gentis, nōn Pylium Nestora rēspicis?
[23] Urgent inpavidī tē Salamīnius
[24] Teucer, tē Sthenelus sciēns
[25] pugnae, sīve opus est imperitāre equīs,
[26] nōn aurīga piger; Mērionēn quoque
[27] nōscēs. Ecce furit tē reperīre atrōx
[28] Tȳdīdēs melior patre,
[29] quem tū, cervus utī vallis in alterā
[30] vīsum parte lupum grāminis inmemor,
[31] sublīmī fugiēs mollis anhēlitū,
[32] nōn hoc pollicitus tuae.
[33] īrācunda diem prōferet īliō
[34] mātrōnīsque Phrygum classis Achilleī;

[35] post certās hiemēs ūret Achāicus

[36] ignis Īliacās domōs.'

Gedicht 16

- [1] Ō mātre pulchrā filia pulchrior,
[2] quem crīminōsīs cumque volēs modum
[3] pōnēs iambīs, sīve flammā
[4] sīve marī libet Hādriānō.
[5] Nōn Dindymēnē, nōn adytīs quatit
[6] mentem sacerdōtum incola Pȳthius,
[7] nōn Līber aequē, nōn acūta
[8] sīc geminant Corybantes aera,
[9] trīstēs ut īrae, quās neque Nōricus
[10] dēterret ēnsis nec mare naufragum
[11] nec saevus ignis nec tremendō
[12] Juppiter ipse ruēns tumultū.
[13] Fertur Promētheus addere prīncipi
[14] līmō coāctus particulam undique
[15] dēsectam et īnsānī leōnis
[16] vim stomachō apposuisse nostrō.
[17] īrae Thyestēn exitiō gravī
[18] strāvēre et altīs urbibus ultimae
[19] stetēre causae, cūr perīrent
[20] funditus inprimeretque mūris
[21] hostile arātrum exercitus īsolēns.
[22] Compēsce mentem: mē quoque pectoris
[23] temptāvit in dulcī juventā
[24] fervor et in celerēs iambōs
[25] mīsit furentem. Nunc ego mītibus
[26] mūtāre quaerō trīstia, dum mihī
[27] fiās recantātīs amīca
[28] opprobriīs animumque reddās.

Gedicht 17

- [1] Vēlōx amoenum saepe Lucrētilem
[2] mūtat Lycaeō Faunus et igneam
[3] dēfendit aestātem capellīs
[4] usque meīs pluviōsque ventōs.
[5] Inpūne tūtum per nemus arbutōs
[6] quaerunt latentīs et thyma dēviae
[7] ūlentis uxōrēs marītī
[8] nec viridīs metuunt colūbrās
[9] nec Mārtiālīs haediliae lupōs,
[10] utcumque dulcī, Tyndari, fistulā

[13] Dī mē tuentur, dīs pietās mea
[14] et Mūsa cordī est. Hīc tibi cōpia
[15] mānābit ad plēnum benignō
[16] rūris honōrum opulenta cornū;

[17] hīc in reductā valle Canīculae
[18] vītābis aestūs et fide Tēiā
[19] dīcēs labōrantīs in ūnō
[20] Pēnelopēn vitreamque Circēn;
[21] hīc innocentis pōcula Lesbī
[22] ducēs sub umbrā nec Semelēius
[23] cum Mārte cōfundet Thyōneus
[24] proelia nec metuēs protervum
[25] suspecta Cȳrum, nē male disparī
[26] incontinentīs īnciat manūs
[27] et scindat haerentem corōnam
[28] crīnibus inmeritamque vestem.

Gedicht 18

[1] Nūllam, Vāre, sacrā vīte prius sēveris arborem
[2] circā mīte solum Tiburis et moenia Cātilī;
[3] siccīs omnia nam dūra deus prōposuit neque
[4] mordācēs aliter diffugunt sollicitūdinēs.
[5] Quis post vīna gravem mīlitiam aut pauperiem crepat?
[6] Quis nōn tē potius, Bacche pater, tēque decēns Venus?
[7] Ac nē quis modicī trānsiliat mūnera Līberī,
[8] Centaurēa monet cum Lapithīs rixa super merō
[9] dēbellāta, monet Sīthoniīs nōn levis Euhius,
[10] cum fās atque nefās exiguō fīne libīdinum
[11] discernunt avidī. Nōn ego tē, candide Bassareu,
[12] invītum quatiam nec variīs obsita frondibus
[13] sub dīvum rapiam. Saeva tenē cum Berecyntiō
[14] cornū tympana, quae subsequitur caecus amor suī
[15] et tollēns vacuum plūs nimiō glōria verticem
[16] arcānīque fidēs prōdiga, perlūcidior vitrō.

Gedicht 19

[1] Māter saeva Cupīdinum
[2] Thēbānaeque jubet mē Semelae puer
[3] et lascīva Licentia
[4] finītīs animum reddere amōribus.
[5] Ūrit mē Glycerae nitor
[6] splendentis Pariō marmore pūrius;
[7] ūrit grāta protervitās
[8] et voltus nimium lūbricus aspicī.
[9] In mē tōta ruēns Venus
[10] Cȳprum dēseruit, nec patitur Scythās
[11] aut versīs animōsum equīs
[12] Parthum dīcere nec quae nihil attinent.
[13] Hīc vīvum mihi caespitem, hīc
[14] verbēnās, puerī, pōnite tūraque
[15] bīmī cum paterā merī:
[16] mactātā veniet lēnior hostiā.

Gedicht 20

[1] Vile pōtābis modicīs Sabīnum
[2] cantharīs, Graecā quod ego ipse testā
[3] conditum lēvī, datus in theātrō
[4] cum tibi plausus,
[5] cāre Maecēnās eques, ut paternī
[6] flūminis rīpae simul et jocōsa
[7] redderet laudēs tibi Vāticānī
[8] montis imāgō.
[9] Caecubum et prēlō domitam Calēnō
[10] tū bibēs ūvam; mea nec Falernae
[11] temperant vītēs neque Formiānī
[12] pōcula collēs.

Gedicht 21

[1] Dīānam tenerae dīcite virginēs,
[2] intōnsum, puerī, dīcite Cynthium
[3] Lātōnamque suprēmō
[4] dīlēctam penitus Jovī;
[5] vōs laetam fluvīs et nemorum comā,
[6] quaecumque aut gelidō prōminent Algidō,
[7] nīgrīs aut Erymantī
[8] silvīs aut viridis Gragī;
[9] vōs Tempē totidem tollite laudibus
[10] nātālemque, marēs, Dēlon Apollinis
[11] īsignemque pharētrā
[12] frāternāque umerum lyrā.
[13] Hic bellum lacrimōsum, hic miseram famem
[14] pestemque ā populō et prīncipe Caesare in
[15] Persās atque Britannōs
[16] vestrā mōtus aget prece.

Gedicht 22

[1] Integer vītae scelerisque pūrus
[2] nōn eget Maurīs jaculīs neque arcū
[3] nec venēnātīs gravidā sagittīs,
[4] Fusce, pharētrā,
[5] sīve per Syrtīs iter aestuōsās
[6] sīve factūrus per inhospitālem
[7] Caucasum vel quae loca fābulōsus
[8] lambit Hydaspēs.
[9] Namque mē silvā lupus in Sabīnā,
[10] dum meam cantō Lalagēn et ultrā
[11] terminum cūrīs vagor expedītīs,
[12] fūgit inermem,
[13] quāle portentum neque mīlitāris
[14] Daunias lātīs alit aesculētīs
[15] nec Jubae tellūs generat, leōnum
[16] ārida nūtrīx.

[17] Pōne mē pīgrīs ubi nūlla campīs
[18] arbor aestīvā recreātūr aurā,
[19] quod latus mundī nebulae malusque
[20] Juppiter urget;
[21] pōne sub currū nimium propinquī
[22] sōlis in terrā domibus negātā:
[23] dulce rīdentem Lalagēn amābō,
[24] dulce loquentem.

Gedicht 23

[1] Vītās hinnuleō mē similis, Chloē,
[2] quaerentī pavidam montibus āviīs
[3] mātrem nōn sine vānō
[4] aurārum et siluae metū.
[5] Nam seu mōbilis vēris inhorruit
[6] adventus foliīs, seu viridēs rubum
[7] dīmōvēre lacertae,
[8] et corde et genibus tremit.
[9] Atqui nōn ego tē, tīgris ut aspera
[10] Gaetūlusve leō, frangere persequor:
[11] tandem dēsine mātrem
[12] tempestīva sequī virō.

Gedicht 24

[1] Quis dēsideriō sit pudor aut modus
[2] tam cārī capitis? Praecipe lūgubrīs
[3] cantūs, Melpomenē, cui liquidam pater
[4] vōcem cum citharā dedit.
[5] Ergō Quīntilium perpetuus sopor
[6] urget? cui Pudor et Jūstiae soror,
[7] incorrupta Fidēs, nūdaque Vēritās
[8] quandō ūllum inveniet parem?
[9] Multīs ille bonīs flēbilis occidit,
[10] nūllī flēbiliōr quam tibi, Vergilī.
[11] Tū frūstrā pius, heu, nōn ita crēditum
[12] poscis Quīntilium deōs.
[13] Quid sī Thrēiciō blandius Orpheō
[14] audītam moderēre arboribus fidem?
[15] Num vānae redeat sanguis imāginī,
[16] quam virgā semel horridā,
[17] nōn lēnis precibus fāta reclūdere,
[18] nīgrō compulerit Mercurius gregī?
[19] dūrum: sed levius fit patientiā
[20] quicquid corrigere est nefās.

Gedicht 25

[1] Parcius jūnctās quatiunt fenestrās
[2] jactibus crēbrīs juvenēs protervī
[3] nec tibī somnōs adimunt amatque
[4] jānua līmen,
[5] quae prius multum facilis movēbat
[6] cardinēs. Audīs minus et minus jam:
[7] Mē tuō longās pereunte noctēs,
[8] Lȳdia, dormīs? '
[9] Invicem moechōs anus arrogantīs
[10] flēbis in sōlō levis angiportū
[11] Thrāciō bacchante magis sub inter
[12] lūnia ventō,
[13] cum tibī flāgrāns amor et libīdō,
[14] quae solet mātrēs furiāre equōrum,
[15] saeviet circā jecur ulcerōsum
[16] nōn sine questū,
[17] laeta quod pūbēs hederā virentī
[18] gaudeat pullā magis atque myrtō,
[19] āridās frondēs hiemis sodālī
[20] dēdicet Eurō.

Gedicht 26

[1] Mūsīs amīcus trīstitiam et metūs
[2] trādam protervīs in mare Crēticum
[3] portāre ventīs, quis sub Arctō
[4] rēx gelidae metuātur ūrae,
[5] quid Tridātēn terreat, ūnicē
[6] sēcūrus. Ō quae fontibus integrīs
[7] gaudēs, aprīcōs necte flōrēs,
[8] necte meō Lamiae corōnam,
[9] Pimplēa dulcis. Nīl sine tē meī
[10] prōsunt honōrēs; hunc fidibus novīs,
[11] hunc Lesbiō sacrāre plēctrō
[12] tēque tuāsque decet sorōrēs.

Gedicht 27

[1] Nātīs in ūsum laetitiae scyphīs
[2] pugnāre Thrācum est; tollite barbarum
[3] mōrem verēcundumque Bacchum
[4] sanguineīs prohibēte rixīs.
[5] Vīnō et lucernīs Mēdus acīnacēs
[6] immāne quantum discrepat; impium
[7] lēnīte clāmōrem, sodālēs,
[8] et cubitō remanēte pressō.
[9] Voltis sevērī mē quoque sūmere
[10] partem Falernī? Dīcat Opūntiae
[11] frāter Megyllae quō beātus
[12] volnere, quā pereat sagittā.

[13] Cessat voluntās? Nōn aliā bibam
[14] mercēde. Quae tē cumque domat Venus
[15] nōn ērubēscendīs adūrit
[16] ignibus ingenuōque semper
[17] amōre peccās. Quicquid habēs, age,
[18] dēpōne tūtīs auribus. Ā! miser,
[19] quantā labōrābās Charybdī,
[20] digne puer meliōre flammā.
[21] Quae sāga, quis tē solvere Thessalīs
[22] māgus venēnīs, quis poterit deus?
[23] vix inligātum tē trifōrmī
[24] Pēgasus expedit Chimaerā.

Gedicht 28

[1] Tē maris et terrae numerōque carentis harēnae
[2] mēnsōrem cohibent, Archȳta,
[3] pulveris exiguī prope lātum parva Matīnum
[4] mūnera nec quicquam tibi prōdest
[5] āeriās temptāsse domōs animōque rotundum
[6] percurrisse polum moritūrō.
[7] Occidit et Pelopis genitor, convīva deōrum,
[8] Tīthōnusque remōtus in aurās
[9] et Jovis arcānīs Mīnōs admissūs habentque
[10] Tartara Panthoidēn iterum Orcō
[11] dēmissum, quamvīs clipeō Trōjāna refīxō
[12] tempora testātus nihil ultrā
[13] nervōs atque cutem mortī concesserat ātræ,
[14] jūdice tē nōn sordidus auctor
[15] nātūrae vērīque. Sed omnīs ūna manet nox
[16] et calcanda semel via lētī.
[17] Dant aliōs Furiae torvō spectācula Mārtī,
[18] exitiō est avidum mare nautīs;
[19] mixta senum ac juvenum dēnsentur fūnera, nūllum
[20] saeva caput Prōserpina fugit.
[21] Mē quoque dēvēxī rapidus comes Ōrīōnis
[22] Illyricīs Notus obruit undīs.
[23] At tū, nauta, vagae nē parce malignus harēnae
[24] ossibus et capitī nec humātō
[25] particulam dare: sīc, quodcumque minābitur Eurus
[26] flūctibus Hesperiīs, Venusīnae
[27] plectantur silvae tē sospite multaque mercēs,
[28] unde potest, tibi dēfluat aequō
[29] ab Jove Neptūnōque sacrī cūstōde Tarentī.
[30] Nēglegis inmeritīs nocitūram
[31] postmodo tē natīs fraudem committere? Fors et
[32] dēbita jūra vicēsque superbae
[33] tē maneant ipsum: precibus nōn linquar inultīs
[34] tēque piācula nūlla resolvent.
[35] Quamquam festīnās, nōn est mora longa; licēbit
[36] injectō ter pulvere currās.

Gedicht 29

- [1] Iccī, beātīs nunc Arabum invidēs
[2] gāzīs et ācrem mīlitiam parās
[3] nōn ante dēvictīs Sabaeae
[4] rēgibus horribilique Mēdō
[5] nectis catēnās? Quae tibi virginum
[6] spōnsō necātō barbara serviet?
[7] puer quis ex aulā capillīs
[8] ad cyathum statuētur ūnctīs,
[9] doctus sagittās tendere Sēricās
[10] arcū paternō? Quis neget arduīs
[11] prōnōs relābī posse rīvōs
[12] montibus et Tiberim revertī,
[13] cum tū coēmptōs undique nōbilīs
[14] librōs Panaetī Sōcraticam et domum
[15] mūtāre lōrīcīs Hibērīs,
[16] pollicitus meliōra, tendis?

Gedicht 30

- [1] Ô Venus rēgīna Cnidī Paphīque,

[3] tūre tē multō Glycerae decōram
[4] trānsfer in aedem.
[5] Fervidus tēcum puer et solūtīs
[6] Grātiae zōnīs properentque Nymphae
[7] et parum cōmis sine tē Juventās
[8] Mercuriusque.

Gedicht 31

- [1] Quid dēdicātum poscit Apollinem
[2] vātēs? Quid ūrat, dē paterā novum
[3] fundēns liquōrem? Nōn opīmae
[4] Sardiniae segetēs ferācēs,
[5] nōn aestuōsae grāta Calābriae
[6] armenta, nōn aurum aut ebur Indicum,
[7] nōn rūra, quae Līris quiētā
[8] mordet aquā taciturnus amnis.
[9] Premant Calēnā falce quibus dedit
[10] Fortūna vītem, dīves et aureīs
[11] mercātor exsiccat culillīs
[12] vīna Syrā reparāta merce,
[13] dīs cārus ipsīs, quippe ter et quater
[14] annō revīsēns aequor Atlanticum
[15] inpūne: mē pascust olīvae,
[16] mē cichorēa levēsque malvae.
[17] Fruī parātīs et validō mihī,
[18] Lātōe, dōnēs, at, precor, integrā
[19] cum mente, nec turpem senectam
[20] dēgere nec citharā carentem.

Gedicht 32

- [1] Poscimur. Sī quid **vacuī** sub **umbrā**
[2] lūsimus tēcum, quod et hunc in annum
[3] vīvat et **plūrīs**, age, dīc Latīnum,
[4] **barbite**, carmen,
[5] **Lesbiō** prīmum modulāte cīvī,
[6] quī, ferōx bellō, tamen inter arma,
[7] sīve jactātam religārat ūdō
[8] lītore nāvem,
[9] Liberum et Mūsās Veneremque et illī
[10] semper haerentem puerum canēbat
[11] et **Lycum** nīgrīs oculīs nigrōque
[12] crīne decōrum.
[13] ō decus Phoebī et dapibus suprēmī
[14] grāta testūdō Jovis, ō labōrum
[15] dulce lēnīmen, mihi cumque salvē
[16] rīte vocantī.

Gedicht 33

- [1] Albī, nē doleās plūs nimiō memor
[2] inmītis Glycerae neu miserābilīs
[3] dēcantēs elegōs, cūr tibi jūnior
[4] laesā praeniteat fide.
[5] īnsignem tenuī fronte Lycōrida
[6] Cȳrī torret amor, Cȳrus in asperam
[7] dēclīnat Pholoēn: sed prius Āpulīs
[8] jungentur capreae lupīs
[9] quam turpī Pholoē peccet adulterō.
[10] Sīc vīsum Venerī, cui placet imparīs
[11] fōrmās atque animōs sub juga aēnea
[12] saevō mittere cum jocō.
[13] Ipsum mē melior cum peteret Venus,
[14] grātā dētinuit compede Myrtalē
[15] libertīna, fretīs ācrior Hādriae
[16] curvantis Calabrōs sinūs.

Gedicht 34

- [1] Parcus deōrum cultor et īfrequēns,
[2] īsānientis dum sapientiae
[3] cōnsultus errō, nunc retrōrsum
[4] vēla dare atque iterāre cursūs
[5] cōgor relictōs: namque Diespiter
[6] ignī coruscō nūbila dīvidēns
[7] plērumque, per pūrum tonantīs
[8] ēgit equōs volucremque currum,
[9] quō brūta tellūs et vaga flūmina,
[10] quō Styx et invīsī horrida Taenarī
[11] sēdēs Atlantēusque fīnis

- [12] concutitur. Valet īma summīs
- [13] mūtāre et īsignem attenuat deus,
- [14] obscūra prōmēns; hinc apicem rapāx
- [15] Fortūna cum strīdōre acūtō
- [16] sustulit, hīc posuisse gaudet.

Gedicht 35

- [1] Ō dīva, grātum quae regis Antium,
- [2] praesēns vel īmō tollere dē gradū
- [3] mortāle corpus vel superbōs
- [4] vertere fūneribus triumphōs,
- [5] tē pauper ambit sollicitā prece
- [6] rūris colōnus, tē dominam aequoris
- [7] quīcumque Bīthynā lacessit
- [8] Carpathium pelagus carīnā.
- [9] Tē Dācus asper, tē profugī Scythaē,
- [10] urbēsque gentēsque et Latium ferōx
- [11] rēgumque mātrēs barbarōrum et
- [12] purpureī metuunt tyrannī,
- [13] injūriōsō nē pede prōruās
- [14] stantem columnam, neu populus frequēns
- [15] ad arma cessantīs, ad arma
- [16] concitet imperiumque frangat.
- [17] Tē semper anteit serva Necessitās,
- [18] clāvōs trabālīs et cuneōs manū
- [19] gestāns aēnā nec sevērus
- [20] uncus abest liquidumque plumbum;
- [21] tē Spēs et albō rāra Fidēs colit
- [22] vēlāta pannō nec comitem abnegat,
- [23] utcumque mūtātā potentīs
- [24] veste domōs inimīca linquis;
- [25] at volgus īfidūm et meretrīx retrō
- [26] perjūra cēdit, diffugiunt cadīs
- [27] cum faece siccātīs amīcī,
- [28] ferre jugum pariter dolōsī.
- [29] Servēs itūrum Caesarem in ultimōs
- [30] orbis Britannōs et juvenum recēns
- [31] exāmen Ēōīs timendum
- [32] partibus Ōceanōque rūbrō.
- [33] Heu heu, cicātrīcum et sceleris pudet
- [34] frātrumque. Quid nōs dūra refūgimus
- [35] aetās, quid intāctum nefāstī
- [36] līquimus? Unde manum juventūs
- [37] metū deōrum continuit? Quibus
- [38] pepercit ārīs? Ō utinam novā
- [39] incūde diffingās retūsum in
- [40] Massagetās Arabāsque ferrum!

Gedicht 36

- [1] Et tūre et fidibus juvat
[2] plācāre et vitulī sanguine dēbitō
[3] cūstōdēs Numidae deōs,
[4] qui nunc Hesperiā sospes ab ultimā
[5] cārīs multa sodālibus,
[6] nūllī plūra tamen dīvidit ōscula
[7] quam dulcī Lamiae, memor
[8] actae nōn aliō rēge puertiae
[9] mūtātaeque simul togae.
[10] Cressā nē careat pulchra diēs notā
[11] neu prōmpta modus amphorae
[12] neu mōrem in Salium sit requiēs pedum
[13] neu multī Damalis merī
[14] Bassum Thrēiciā vincat amystide
[15] neu dēsint epulīs rosae
[16] neu vīvāx apium neu breve līlīum.
[17] Omnēs in Damalīn putrēs
[18] dēpōnent oculōs nec Damalis novō
[19] dīvellētur adulterō
[20] lascīvīs hederīs ambitiōsior.

Gedicht 37

- [1] Nunc est bibendum, nunc pede līberō
[2] pulsanda tellus, nunc Saliāribus
[3] ūrnāre pulvīnar deōrum
[4] tempus erat dapibus, sodālēs.
[5] Antehāc nefās dēprōmere Caecubum
[6] cellīs avītīs, dum Capitōliō
[7] rēgīna dēmentīs ruīnās
[8] fūnus et imperiō parābat
[9] contāminātō cum grege turpium
[10] morbō virōrum, quidlibet impotēns
[11] spērāre fortūnāque dulcī
[12] ēbria. Sed minuit furōrem
[13] vix ūna sospes nāvis ab ignibus,
[14] mentemque lymphātam Mareōticō
[15] redēgit in vērōs timōrēs
[16] Caesar, ab ītaliā volantem
[17] rēmīs adurgēns, accipiter velut
[18] mollīs columbās aut leporem citus
[19] vēnātor in campīs nivālis
[20] Haemoniae, daret ut catēnīs
[21] fātāle mōnstrum. Quae generōsius
[22] perīre quaerēns nec muliēbriter
[23] expāvit ēensem nec latentīs
[24] classe citā reparāvit ūrās,
[25] ausa et jacentem vīsere rēgiam
[26] voltū serēnō, fortis et asperās
[27] tractāre serpentēs, ut ātrum

[28] corpore conbiberet venēnum,
[29] dēliberātā morte ferōcior:
[30] saevīs Liburnīs scīlicet invidēns
[31] prīvāta dēdūcī superbō,
[32] nōn humilis mulier, triumphō.

Gedicht 38

[1] Persicōs ūdī, puer, apparātūs,
[2] displicant nexae philyrā corōnae,
[3] mitte sectārī, rosa quō locōrum
[4] sēra morētur.
[5] Simplicī myrtō nihil adlabōrēs
[6] sēdulus, cūrō: neque tē ministrum
[7] dēdecet myrtus neque mē sub artā
[8] vīte bibentem.
